Gradescope submission

in 60 seconds

Gradescope advantages

For students:
Submit work from home
Read marks and feedback from home
Always have access to work and feedback

For us:
Never lose any work
Record marks automatically
Divide questions between markers easily

Gradescope disadvantages

For students:
Submission process a bit of a palaver

For us:
More student excuses for late work
Poor quality scans are difficult to read
Some students submit photos, not proper scans

Submission process

1. Scan in work with a scanning app

2. Save scanned work to phone's
   file system or to shared folder

3. Send scanned work
   from phone to laptop

4. Log on to Minerva on laptop,
   then find and follow link to Gradescope

5. Find scanned work on laptop

6. Upload scanned work to Gradescope

Submission process

1. Scan in work with a [scanning app](#)

2. Save scanned work to phone's file system or to shared folder

3. Send scanned work from phone to laptop

4. Log on to Minerva on laptop, then find and follow link to Gradescope

5. Find scanned work on laptop

6. Upload scanned work to Gradescope

33% Microsoft Lens

83% Access Gradescope via laptop
17% Access Gradescope via phone

Submission process

1. Scan in work with a scanning app

2. Save scanned work to phone's
   file system or to shared folder

3. Send scanned work
   from phone to laptop

4. Log on to Minerva on laptop,
   then find and follow link to Gradescope

5. Find scanned work on laptop

6. Upload scanned work to Gradescope

Submission process

1. Scan in work with a scanning app

2. Save scanned work to phone's
file system or to shared folder
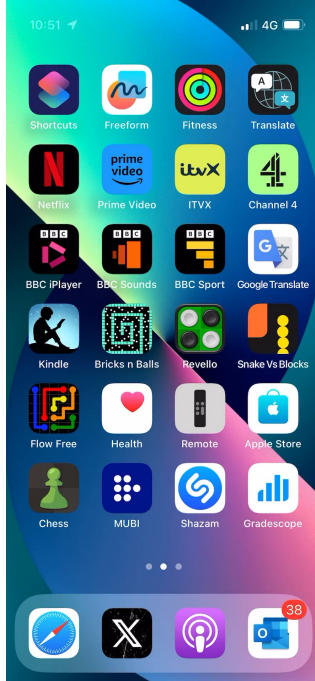

3. Send scanned work
from phone to laptop

4. Log on to Minerva on laptop,
then find and follow link to Gradescope

5. Find scanned work on laptop

6. Upload scanned work to Gradescope

or

…just use the
Gradescope app

A second-year module (not encouraged to use the app)		**My first-year module** (encouraged to use the app)	
82%	Gradescope website, via laptop	59%	Gradescope website, via laptop
14%	Gradescope website, via phone	15%	Gradescope website, via phone
5%	Gradescope app	27%	Gradescope app

What you need to do

1. Make sure to **Sync Minerva Roster** in Gradescope.

The Gradescope app is…

…is the easiest and quickest way
for students to submit handwritten work

…the best way for us to ensure we get
high-quality, clearly scanned submissions

…how we should be encouraging
students to submit work
